

homeSAFE Campaign Partners

The homeSAFE (Safety Awareness For Elevators) Campaign is an industry-led initiative designed to increase home elevator safety awareness. Whether it is to manufacture, install, inspect or maintain home elevators, as industry leaders, we understand home owner safety is the most important part of our business. Through homeSAFE, we commit to providing home elevator owners with a comprehensive look at home elevator safety. At the same time, we hope to foster greater partnership and collaboration within the home elevator industry.

Association of Members of the Accessibility Equipment Industry (AEMA)

AEMA is a non-profit organization formed in 1990 to meet the needs of the accessibility equipment manufacturers, distributors and end users. AEMA is dedicated to the Private Residence Elevator and Accessibility Equipment industry, including the design, manufacturing, installation, servicing and maintenance of vertical, inclined and horizontal conveying systems which are used primarily to provide access and/or egress for persons in public and private residence environments. For more information, please visit AEMA's website at <http://aemamembers.sharepoint.com/Pages/default.aspx>.

National Association of Elevator Contractors (NAEC)

NAEC is an association of elevator contractors, suppliers of products and services, and other industry professionals. The Association serves the interests of the industry by promoting safety in the elevator industry advocating excellence in the management of member companies. For more information, please visit NAEC's website at www.naec.org.

NAESA International (National Association of Elevator Safety Authorities International)

NAESA International is a non-profit organization with nearly 2,500 members comprised of elevator inspectors, mechanics, consultants, contractors, architects, engineers, elevator manufacturers and others interested in elevator safety, code enforcement and technology. The organization is open to individuals from all segments of the elevator industry who are interested in improving the manufacturing, performance, inspection and safety of elevators, escalators and other conveyances. For more information, please visit NAESA International's website at www.naesai.org.

ThyssenKrupp Access Corp.

With a history of quality spanning more than six decades, ThyssenKrupp Access Corp. is a trusted name in the Accessibility industry. Although no longer manufacturing new products in the United States, ThyssenKrupp Access continues to provide quality parts and warranty service in the region. Consistent with its commitment to safety and education, the company supports the homeSAFE Campaign as part of its responsibility to ensure the safe use of its products.
